

Processing With a Purpose™

Cam Neely would like to take this opportunity to personally invite you to participate in a very special program that will save you money on your credit card processing fees, as well as change the lives of cancer patients and their families. The program is called "Processing with A Purpose".

The process is simple and the purpose will change lives forever.

The program that we have developed allows participating businesses to support The Cam Neely Foundation for Cancer Care through an activity that is part of your every day business environment; the processing of credit cards. We will make a contribution to the Foundation from the revenue that we receive for processing credit cards at participating merchant locations.

You are not required to make any direct contribution to the foundation to participate in this program. All your company needs to do is process with us. We do everything else. It does not require any additional administration on your part. The program is quite simple. Based on the credit cards processed at your store we will make an annual contribution to The Cam Neely Foundation for Cancer Care for as long as your store participates in the program. **In addition, your processing costs with us will be priced so that your credit card processing fees are reduced to a level below what you are paying to your current processor.** Best of all, you are not required to change your depository banking relationship. We settle all bankcard transactions to your bank of choice via ACH Federal Reserve System. There is no change to the operating environment in your store because we are certified to integrate with all terminals and cash register systems in the marketplace. Whether your business is processing via internet, MO/TO, Dial Up, Frame Relay or IP wrapped transactions, we can process the transactions quickly and easily, and your staff will not encounter any change to their daily processes. Quite frankly it is transparent!
